

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

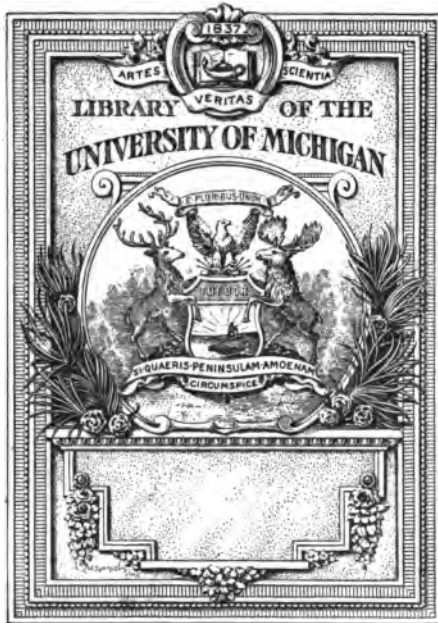

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

BIENNIAL REPORT

OF

DEPARTMENT OF STATE.

STATE OF INDIANA,
OFFICE OF THE SECRETARY OF STATE.

HON. J. FRANK HANLY, *Governor*:

Sir—In compliance with the laws of the State, I have the pleasure and honor to herewith submit a report of the Department of State for the twenty-three months ending September 30, 1908, the period covered having been reduced one month by the act of the General Assembly of 1907 changing the date of the ending of the fiscal year from October 31 to September 30.

Continuously since 1900 the receipts of this office have shown marked increase, and the term just ended proves no exception. From October 31, 1906, to September 30, 1908, the receipts of the various departments of the office have been as follows:

Domestic corporations	\$285,521 57
Foreign corporations	22,573 57
Miscellaneous	20,388 59
Motor vehicle registrations	6,786 00
Sales of Supreme and Appellate Court reports.....	20,532 50
Interest on deposits to January 1, 1908.....	700 64
Total	\$356,502 87

Net gain over preceding two years, \$73,476.28.

The figures submitted show not only the largest receipts of any similar period, but also a greater gain than ever before, and for purposes of comparison I append the following table of receipts:

Two years ending October 31, 1892.....	\$46,000 00
Two years ending October 31, 1894.....	76,487 20
Two years ending October 31, 1896.....	61,125 55
Two years ending October 31, 1898.....	54,326 30
Two years ending October 31, 1900.....	137,154 85
Two years ending October 31, 1902.....	187,176 31
Two years ending October 31, 1904.....	226,131 62
Two years ending October 31, 1906.....	283,026 50
Twenty-three months ending September 30, 1908.....	356,502 87

In connection with the above financial statement, there is also appended a table showing all appropriations for the term, the expenditures and the sums returned to the treasury, as follows:

	<i>Total Ap- propriations.</i>	<i>Expended.</i>	<i>Returned to Treasury.</i>
1907.....	\$15,750	\$13,986 39	\$1,763 61
1908.....	14,900	14,293 89	606 11
	<u>\$30,650</u>	<u>\$28,280 28</u>	<u>\$2,369 82</u>

Comparing collections and expenditures the result is as follows:

Total collections	\$356,502 87
Net expense	28,280 28
Surplus	<u>\$328,222 59</u>

For the proper conduct of the department's business during the fiscal years ending September 30, 1910, and September 30, 1911, which will be considered by the Sixty-sixth General Assembly, I make the following recommendations:

Salary of Secretary of State	\$6,500
Salary of Deputy Secretary of State	2,400
Salary of Clerk	1,500
Salary of Recording Clerk	1,000
Salary of Stenographer and Clerk	720
Salary of Stenographer	720
Expense of office	600
Expense of distribution of court reports	250
Expense of foreign corporation department	500
Expense of distribution of public documents	250
Expense of motor vehicle registrations	200
Total	<u>\$14,640</u>

The General Assembly of 1907 passed laws requiring annual reports by corporations, both foreign and domestic. The foreign corporation reports of themselves have shown a great increase in the proportion of capital represented by property and business in this State, since more than \$12,000 has been realized as additional franchise fees from this class of corporations in the first year of the new law's operation. Previously nothing was collected on such increase, but now the corporation is required to pay one-tenth of one per cent. thereon. Domestic corporations have paid in fees, occasioned by the developments shown by the reports, some \$1,500 for the filing of necessary papers to make proper record, and corporate conditions in these instances have been much improved. Aside from these collections much has resulted in the improvement of the office indexes. Until these laws went into effect absolutely no word was received from a corporation from the time of its creation until it voluntarily supplemented some document changing its name, increasing its capital, etc. When the report system was inaugurated the indexes showed perhaps 20,000 corporations, the list beginning in 1851 and continuing to the present time. With the reports many hundreds of these have been eliminated, they having long since gone out of existence. In addition to now having an index to all the existing corporations that have filed reports, there is knowledge also as to their locations and present officers. These laws have been of great value to a correct office knowledge of corporations and, in my judgment, a decided advantage to the corporations as a reminder of the correct application of corporate laws.

The receipt, filing, indexing and correspondence resulting from the report laws have very materially increased the clerical duties of the office, and I can not conscientiously refrain from recommending an appropriation for an additional stenographer to assist in keeping the increased business in proper order.

I have been especially gratified with the law, recommended two years ago, which created a financial agent whose duty it is to carefully examine the receipts of the office by checking up its every transaction. While the business methods employed in the office give reasonable assurance of accuracy, there being daily cash balances and settlements with the State Treasurer, the new plan verifies the books and records, and for each employe, while relieved of no responsibility, there is eminent satisfaction when the O. K. of an expert in no way associated with the office shall have been given.

The card index system of corporations, in course of making at the time of my previous biennial report, has long since been completed, being supplemented each day with such additions as are filed. It speaks for itself. No longer are hours lost in tracing corporate records, but instant access is found to corporate title, address, capital stock and other important facts. Those most familiar with the office have most praise for the improvement. It is worthy of mention, too, that this index was made at no extra expense to the State other than the cost of cards and cabinet.

Two years ago this report suggested a growing necessity for more room for the Department of State. This suggestion deserves emphasis at this time, the intervening business having served to further cramp conditions as they relate to shelf room for records, desk room for employes and proper care for the people who are constantly seeking information. This office is a greater revenue producer than any other, and hence needs and deserves larger quarters in order that its affairs may be properly and expeditiously conducted.

STATE PRINTING AWARD.

Statement Showing Proceedings of the Board of Public Printing, Binding and Stationery in Awarding the Present State Printing Contract.

At meetings of the Board of Public Printing, Binding and Stationery, held on the 4th day of October, 1907, the specifications and notice to printers asking for bids on State printing, binding and stationery supplies for two years was approved.

The following notice was ordered published twice each week for three consecutive weeks in the Indianapolis News, Indianapolis Star, The Fort Wayne News, the South Bend Tribune and the Terre Haute Star:

NOTICE TO PRINTERS, BOOKBINDERS AND STATIONERS.

BUREAU OF PUBLIC PRINTING, BINDING AND STATIONERY, }
INDIANAPOLIS, October 16, 1907.

The Board of Commissioners of Public Printing, Binding and Stationery will, in accordance with an act of the General Assembly approved April 13, 1885, receive sealed proposals on the 15th day of November, 1907, at the hour of 2:00 o'clock p. m., for doing the public printing and binding and furnishing the stationery supplies for the use of the State of Indiana for a term of two years, commencing on the 18th day of November, 1907.

At the same time and in the same manner, covering the same period, the Board will also receive separate bids for the printing and binding of the Supreme and Appellate Court Reports, in accordance with the law authorizing the publication of same.

All bids submitted must be signed by parties proposing to do the work, securely sealed, and accompanied with such certified checks and samples as are hereinafter named. Bidders must bid on all items in the proposals and make extensions of prices, and place the totals at the bottom of each of the classes and subdivisions. Bids will not be considered unless these requirements have been complied with.

Upon receipt of said sealed proposals they will be opened and signed by members of said Board, and as soon thereafter as the bids and samples can be properly examined the competing bidders will be notified to be present, when the contracts will be awarded to the lowest and best bidder, or bidders, according to law; the Board, however, reserving the right to reject any or all bids submitted.

Each bidder, at the time of submitting his bid, shall also submit and deposit with the Board, payable to the order of the Governor of Indiana, a certified check, on some bank approved by the Board, in the sum of \$5,000, where the bid covers all of the three classes named; where the bid covers less than the three classes and more than one class, \$3,000; where bid covers one class or less, \$1,500, for the general printing, binding and stationery contract, and \$1,000 with the bid for the Supreme and Appellate Court Reports contract, as a guarantee that such bidder will enter into a contract pursuant to such bid and notice and the specifications referred to herein, and will submit a bond as herein provided to the approval of the Board, and if any such bidder shall fail to carry out the terms of this notice and such bid and enter into such contract and file such bond, in that event the Governor shall deliver the check or the proceeds thereof, to the Treasurer of State, to be collected by him as such Treasurer as liquidated damages for the failure of such bidder to carry out the terms of this notice and his bid and the specifications referred to herein, and enter into such contract and file such bond.

The successful bidder or bidders will be required to furnish separate bonds, to be approved by the Board, in such reasonable sum as the Board shall designate,

for the general printing, binding and stationery, and \$15,000 for the Supreme and Appellate Court Reports, at the time said contract or contracts are awarded to said bidder or bidders, for the faithful performance of all work in accordance with the specifications hereinafter named, and that in every instance the paper and material furnished shall be in weight, color and quality the same as called for in the specifications.

The Board will consider bids for the whole of the general printing, binding and stationery supplies, and also separate bids for any one or more classes, or any one or more subdivisions of any class.

The first subdivision of the first class shall comprise the Acts of the General Assembly, School and State Department Laws.

The second subdivision of the first class shall comprise the House and Senate Journals.

The third subdivision of the first class shall comprise all Reports of State Offices, State Institutions, Boards, Commissions, and the Legislative Manual, Calendars, and Documentary Journal.

The fourth subdivision of the first class shall comprise bulletins and catalogs of Board of State Charities, Educational Institutions and miscellaneous pamphlet work not included in the third subdivision of this class.

The fifth subdivision of the first class shall comprise the Board of Health Bulletins, and all 2, 4, 8, 12 and 16-page folders printed on book paper, basis of state size except Board of Health Bulletin, which is double state size pages.

The sixth subdivision of the first class shall comprise all blank books, plain ruled, or ruled and printed, three-fourth or full bound with patent binding when so ordered.

The first subdivision of the second class shall comprise legislative bills.

The second subdivision of the second class shall comprise all lithographed commissions, and certificates, also blanks, including Diplomas, Auditor's Quietuses, and Warrants, Statements, Teachers' Certificates, Legislative Passes and Governor's Proclamations.

The third subdivision of the second class shall comprise letter and memo heads, and envelopes, printed, lithographed, and embossed.

The fourth subdivision of the second class shall comprise all printed and ruled blanks and court calendars.

The fifth subdivision of the second class shall comprise all miscellaneous paper and stationery and typewriter supplies other than printing, and not included in any other preceding subdivision.

The sixth subdivision of the second class shall comprise typewriters.

The seventh subdivision of the second class shall comprise adding and other machines.

The eighth subdivision of the second class shall comprise the State Election ballots.

The third class shall comprise all miscellaneous rebinding of books, magazines and newspapers.

The contract for printing and binding the Supreme and Appellate Court Reports will be let as a whole to the lowest and best bidder, according to law, the Board reserving the right to reject any or all bids submitted.

The contractor or contractors shall maintain an office in the city of Indianapolis for the transaction of all business under said contracts, and must agree, upon the taking effect of the contracts, to maintain a plant of sufficient capacity to do the work of the State speedily and without unnecessary delay. All work under said contracts shall be performed within the State of Indiana.

Any bidder or bidders who shall be awarded these contracts shall not assign or sub-let the same, or any portion thereof, without the written consent of the Board of Public Printing.

The Board has made a basis upon which bids are asked solely for the purpose of securing uniformity of bids, but will not be governed by this basis alone in awarding the contracts. Given in the specifications is a statement from the Clerk of the Board showing approximately the quantity of articles used the past two years, which will assist the Board in determining which, if any, of the bids submitted are the best for the State.

Harry Slough, Clerk of the Board, will furnish, upon application, specifications and full particulars regarding the work.

On November 15, 1907, sealed bids were received from the following named firms:

Thornton-Levey Company, for the general printing, binding and stationery supplies and Court Reports.

The Wm. Mitchell Printing Company, for Court Reports only.

Levey Bros. & Company, for stationery supplies only.

Sentinel Printing Company, for general printing, binding and stationery supplies and Court Reports.

The Board inspected and approved the certified checks accompanying the various bids, affixed their signatures to each bid, and turned them over to the Clerk of the Board to be compiled and extended to the quantities designated for two years.

The Board then adjourned to meet on call of the chairman.

On November 29, 1907, the Board met in special session to inspect and consider the compilation of bids as prepared by the Clerk, which were as follows:

It appearing on examination of the compilation of bids and comparison of stock samples submitted that Wm. B. Burford was the lowest bidder on all the classes and subdivisions for general printing, and Court Reports, the Board proceeded to award the contract to Mr. Burford for general printing and Court Reports.

The Board decided all bids for stationery supplies included in fifth, sixth and seventh subdivisions of the second class of the specifications were too high, and rejected all such bids. The Clerk was directed to prepare separate specifications covering the subdivisions rejected, and advertise for new bids. It was ordered that notice to bidders be published Tuesdays and Fridays for three consecutive weeks in the Indianapolis News and Indianapolis Star.

New specifications for subdivisions five, six and seven were approved by the Board at a meeting held December 2, 1907. The notice to bidders follows:

NOTICE TO PRINTERS, BOOKBINDERS AND STATIONERS.

BUREAU OF PUBLIC PRINTING,
INDIANAPOLIS, December 2, 1907. }

The Board of Commissioners of Public Printing, Binding and Stationery will, in accordance with an act of the General Assembly, approved April 13, 1885, receive sealed proposals on the 24th day of December, 1907, at the hour of 10 o'clock a. m., for furnishing stationery supplies, typewriters and adding machines for the use of the State of Indiana for a term ending December 2, 1909.

All bids must be signed by parties proposing to do the work, securely sealed, and accompanied with such certified checks and samples as are hereinafter named. Bidders must bid on all items in the proposals and make extensions of prices, and place the totals at the bottom of each of the subdivisions. Bids will not be considered unless these requirements have been complied with.

Upon receipt of said sealed proposals they will be opened and signed by members of said board, and as soon thereafter as the bids and samples can be properly examined the competing bidders will be notified to be present, when the contracts will be awarded to the lowest and best bidder or bidders, according to law; the board, however, reserving the right to reject any or all bids submitted.

Each bidder, at the time of submitting his bid, shall also submit and deposit with the board, payable to the order of the Governor of Indiana, a certified check on some bank approved by the board, in the sum of \$1,500 as a guarantee that such bidder will enter into a contract pursuant to such bid and notice and the specifications referred to herein, and will submit a bond as herein provided to the approval of the board, and if any such bidder shall fail to carry out the terms of this notice and such bid and enter into such contract and file such bond, in

that event the Governor shall deliver the check or the proceeds thereof to the treasurer of state, to be collected by him as such treasurer as liquidated damages for the failure of such bidder to carry out the terms of this notice and his bid and specifications referred to herein, and enter into such contract and file such bond.

The successful bidder or bidders will be required to furnish separate bonds to be approved by the board, in such reasonable sum as the board shall designate, at the time said contract or contracts are awarded to said bidder or bidders, for the faithful performance of all conditions of the contract in accordance with the specifications hereinafter named; and that in every instance the paper and material furnished shall be in weight, color and quality the same as called for in the specifications.

The board will consider separately, bids for subdivisions 5, 6 and 7 of the second class, of the original specifications for printing, binding and stationery. The fifth class will comprise miscellaneous paper, such as blotting, carbon, typewriter, plain letter and note and wrapping paper; stationery supplies, such as pencils, pens, erasers, rubber bands, inks, muclage, scratch tablets, etc.

The sixth subdivision will consist of typewriters only.

The seventh subdivision will consist of adding and other machines.

Bids may be for any one or all of said subdivisions.

Any bidder or bidders who shall be awarded these contracts, shall not assign or sublet the same or any portion thereof, without the written consent of the Board of Public Printing.

The board has made a basis upon which bids are asked solely for the purpose of securing uniformity of bids, but will not be governed by this basis alone in awarding the contracts. Given in the specifications is a statement from the clerk of the board showing approximately the quantity of articles used for the past two years, which will assist the board in determining which, if any, of the bids submitted are the best for the State.

Harry Slough, clerk of the board, will furnish upon application, specifications and full particulars regarding the articles enumerated therein.

December 24, 1907, the Board met for the purpose of receiving bids for stationery supplies as described in the September supplement to the general specifications. Bids were received from Wm. B. Burford, Thornton-Levey Company, and the Sentinel Printing Company; also, from the Remington and Oliver Typewriter Companies for typewriters only. The bids for stationery supplies were as follows:

Wm. B. Burford	\$5,632 30
Thornton-Levey Co.	6,635 15
Sentinel Ptg. Co.	6,711 45

Mr. Burford being the lowest bidder, the Board proceeded to award him the contract for Stationery Supplies.

The Board was unable to arrive at any definite conclusion regarding the bids on typewriters at this meeting, and deferred letting any contract until a future meeting.

At a Board meeting held January 11, 1908, the Oliver Typewriter Company was awarded the contract to furnish typewriters for a period ending December 2, 1909.

The contracts and bonds of Wm. B. Burford and the Oliver Typewriter Company were approved, and are herewith appended:

The work to be done above named will be divided into three classes, as follows:

The first subdivision of the first class shall comprise the Acts of the General Assembly, School and State Department Laws.

The eighth subdivision of the second class shall comprise the State Election ballots.

All the book and cover paper used in printing the reports, acts, journals and all classes of pamphlet or book printing that may be required for the use of the State, shall be the best on the market, of the quality named in the specifications, and the contract shall be per pound for the amount used, no allowance being made for waste, handling, freight or otherwise. The weight of book and cover paper will be determined by comparison with samples furnished, on basis of 25x38 book and 20x25 cover, and all weights must be furnished at the same price per pound as that bid on in specifications.

In the printing of reports and all classes of printing requiring the use of book or cover paper, contractor will be required to use the size and weight of paper designated by the Board or its Clerk. If at any time contractor uses any other grade of book or cover paper than that coming within the contract without the consent of the Board or its Clerk, it will be charged at contract price, or if an inferior grade is used it will be allowed for according to grade used, or rejected entirely, if so ordered by the Board.

The composition shall be bid for by the 1,000 ems, actual measure in book or pamphlet, no blank pages or other unreal charge to be allowed, divided into two classes, as follows: Plain matter and rule and figure work. Rule and figure work shall consist of three or more justifications of words or figures with rules, or four or more justifications of words or figures without rules, to be measured as plain matter, one measure, as bid on per 1,000 ems rule and figure work, in accordance with size of type used. All work not classed as rule and figure work, including institutional vouchers, shall be measured as plain matter, one measure, as bid on per 1,000 ems plain matter, in accordance with size of type used.

The price bid on per 1,000 ems shall include the cost of page and galley proofs required, making up pages, handling, locking up forms and all work required in delivering same to press. But where forms are re-made up, or plates are used, when composition is not measured, contractor will be allowed the customary time allowance per hour actually required in re-making up, locking up forms and delivering same to press, which extra time must be accompanied by an affidavit sworn to before a notary public.

The type used in printing the reports, acts, journals and all classes of pamphlet or book printing shall be modern face, unless otherwise ordered, and make a clear, neat appearance, and the spacing between words, etc., shall be the same as is done on all first-class book work.

In spacing between lines on all book composition, only six-to-pica leads will be allowed, unless otherwise ordered. In no case will contractor be allowed extra pay for setting matter "solid."

In making up type pages only such spacing as is necessary to make neat appearance of page will be allowed, and under no circumstances will contractor be allowed to use wide spacing in order to increase the number of pages.

Press work on book and pamphlet work shall be bid for at so much for the first 100 impressions and so much for each additional 100 impressions, 16 pages to form, including make-ready and ink. All forms of a less number of impressions to be paid for as a full 100.

The price bid for press work shall be to do first-class work and furnish the best quality of ink.

In the furnishing of all descriptions of blanks, blank books and all kinds of writing and other paper named, the contractor must conform to sizes, weights and quality mentioned in specifications, unless otherwise ordered.

All books bound in leather, cloth or pamphlet shall be bid for at so much per 100 signatures of 16 pages each for folding, gathering and sewing, complete, and so much apiece for covers, including the cost of all materials used, lettering of title in any style, and all work necessary to complete book. Binding must be of best material and first-class workmanship, and to be counted by the number of copies actually delivered. In no case will wire stitching be allowed on books bound in cloth or leather.

All pamphlets, etc., with paper covers, shall be bid for by the 100 signatures, including all handling, assorting, folding, wire stitching or sewing, trimming, and so much for putting on covers, in good, workmanlike manner.

All signatures of less number will be paid for as a full 100 signatures. Covers will only be allowed for the actual number ordered.

The tipping in of signatures, plates or maps shall be bid for by the 100 signatures, plates or maps, including folding, stitching and trimming.

Specifications call for the best binding and most approved material now in general use.

The Board reserves the right to reduce or increase the number of copies of all publications, and to order any report or pamphlet bound in any manner specified in this class at contract prices.

Samples of binding and full information will be furnished upon application to the Clerk of the Board.

LEGISLATIVE.

All bids shall be to include all the printing, binding and stationery of the General Assembly at the same prices and under the same conditions as supplies named in the specifications.

All orders for supplies for the General Assembly must be made upon the Board in the same manner as required in ordering for State offices and institutions, and

all requisitions shall be made out by the Clerk of the Board, and all bills certified by him as correct according to contract, before same will be allowed.

All supplies for the General Assembly shall first pass the inspection of the Clerk of Board before the same is delivered to the House and Senate, and by him certified as proper and correct according to order.

GENERAL REQUIREMENTS.

All work shall be delivered to the Printing Bureau or departments in the State House, as the Clerk of the Board may direct, free of charge.

All articles furnished under this contract must be, in every respect, of the most improved material now in use.

All articles furnished or work done, not enumerated in specifications, must be furnished in the most economical manner practicable, and at prices not to exceed the regular market price for similar articles.

The contractor must at all times be able to furnish the exact quality of supplies named in specifications, but if by mutual agreement between Board and party ordering and contractor any different kind is substituted, the quality and price shall not exceed that named for similar articles in specifications.

In accepting the contract for general printing, binding and stationery, the contractor will be required to do the work promptly and without unnecessary delay, in a good, workmanlike manner. If at any time the contractor fails to do the work authorized by the State within a reasonable length of time, the Board reserves the right to order the work done elsewhere, and have the bill sent to the contractor, who shall make out his bill to the State for the work done at contract price and no more.

Proofs and revises of all description of printing shall be furnished and delivered without charge to the State.

All bills containing charges for time consumed in making changes from authors' copy must be accompanied by the original copy and all proof, both galley and page.

All bids shall be to furnish the exact amount of printing, stationery and binding ordered, at prices bid in specifications. In no case will contractor be allowed to charge for more than the exact amount of any article ordered, without the consent of the Board.

All such material and work shall be delivered to the Clerk in charge of the Bureau of Public Printing, Binding and Stationery, and shall be subject to his inspection, and be by him accepted or rejected as the same shall or shall not be according to contract, and all such supplies shall be accompanied with an itemized statement giving name and quantity of articles delivered, and when inspected and approved by said Clerk, said supplies shall be by him receipted for, and after such inspection and approval he shall deliver the same to the officer or department ordering the same, and take his itemized receipt therefor.

All orders for supplies must be made upon the Board, whereupon the Clerk of the Board will make out requisition for supplies required to be furnished through the contractor; and in no case will contractor be allowed to fill an order for supplies for the State without having first obtained a requisition for same from the Board.

All requisitions and bills shall contain the size, name and quality of paper used, and full name and number of article of stationery ordered. In no case will Board entertain any requisition or bill made out with pencil.

The printed copies of the session laws of the General Assembly required by law must be delivered to the Secretary of State within thirty days from the date on which last copy shall be furnished the contractor by the Secretary of State.

In determining the lowest and best bid, quality of samples will be taken into consideration. All samples submitted must be properly labeled as to size, weight and quality and number of items for which samples are intended to cover, together with name of bidder on each sample submitted. All samples submitted to be flat, not folded, or put up in roll, and shall remain the property of the State.

SPECIFICATIONS.

SUPREME AND APPELLATE COURT REPORTS.

The specifications call for the printing and binding of the Supreme and Appellate Court Reports, and all bids shall be to do the work strictly in accordance with the law authorizing the publication of said reports. All of said work to be done under the supervision of the Reporter of the Supreme Court.

There will be printed of each volume of the Supreme Court Reports 1,500 copies, and of each volume of the Appellate Court Reports not to exceed 1,200 copies. Each volume of these reports will contain at least seven hundred pages exclusive of index.

The work to be done is specified as follows:

The paper used in printing the reports shall be of the same color, quality and weight in all respects as that used in the July number of Law Reports (1905) Appeal Cases, now on file with the Librarian of the State Law Library, and such paper shall be submitted to the Reporter of the Supreme Court and receive his approval before being used in such reports. The bids shall be per pound for the amount used, no allowance being made for handling, waste, freight or otherwise.

The composition shall be bid for by the 1,000 ems, one measure, net, actual measure in the book, in accordance with the sizes of type used. No blank pages or other unreal charges will be allowed.

The price bid on per 1,000 ems shall include the cost of making up pages, locking up forms and delivering same to the press.

The type used in printing the reports shall be modern face, unless otherwise ordered, and make a clear, neat appearance, and the spacing between words, etc., shall be the same as is done on all first-class book work.

The style of type and make-up on said reports shall be subject to the approval of the Reporter of the Supreme Court.

In spacing between the lines only six-to-pica leads shall be used, unless otherwise ordered by the Reporter.

The press work shall be bid for by the 100 impressions, 16 pages to form, including make-ready and ink.

The price bid for press work shall be to do first-class work and furnish the best quality of ink.

The binding of said reports shall be bid for by the single copy, complete, including all handling, assorting, folding, sewing of signatures, trimming, covering and lettering of title, etc.

The price bid for binding shall be to bind said reports in the best full law sheep, without any flanks or other imperfections, and best linen buckram equivalent to the sample on file with the Clerk of the Printing Board, color to be selected by the Reporter of the Supreme Court. Also one-half calf and silk finish cloth, sample on file in Printing Bureau. The numbers of the different binding to be subject to the order of the Printing Board, and the workmanship to be first-class. The pay to be determined by the number of volumes actually delivered to the State. In no case shall the use of "skiver" be allowed, and if it be ascertained that skiver has been used on any of the volumes, the contractor shall forfeit to the State the price of the total cost of such volume to be deducted from any sum owing by the State, or may be collected from the bond furnished such contractor. Such contractor shall have the privilege of rebinding same according to the contract and paying any transportation charges necessary in the forwarding and return of such books to the owners thereof.

Electrotype plates shall be bid for by the single page, to remain the property of the State, boxed and delivered to the Secretary of State, without extra charge. Said plates shall be delivered in first-class shape, and in the kind of boxes seen in the office of Secretary of State.

Reprint or subsequent editions from plates shall be bid for by the single copy, complete, for the actual number printed, using same quality of material bid on in specifications, including the handling of plates and delivering the reports to the Secretary of State. No extra charge on any reprint or subsequent edition will be allowed, unless the same is incurred at the instance or order of the Board, except

the wrapping of same, which shall be at the price bid on in specifications. Any corrections in such plates to be made at the same price as the work of same kind on current books.

The wrapping of the reports shall be bid for by the 100 copies, including all handling, paper of the kind and quality mentioned in specifications, and the stamping of the number of volume on wrapper, and shall be for the actual number wrapped.

All bids on these reports shall be to include the furnishing of clearly printed proof of the opinions of the Judges, and the syllabi, for the various corrections to be made therein, without any extra charge to the State, as follows:

(1) Galley proofs of the opinions of the Judges of said courts, and syllabi and history of the case shall be furnished, and in such quantities as the Reporter may direct and can dispose of.

(2) All corrections and alterations in said proofs shall be made as indicated be the Reporter.

(3) After corrections and alterations in said proofs have been made, then the contractor shall furnish to said Reporter proofs of said corrections and alterations in page form, as directed by said Reporter.

(4) All corrections and alterations in said page proofs shall be made as indicated in said pages by the Reporter.

(5) After said page proofs have been returned and the corrections and alterations made as thereon indicated, contractor shall furnish to said Reporter proofs thereof in pages, as directed by Reporter.

(6) After all corrections and alterations in said pages have been made as indicated by the Reporter and Judges, proof of which is furnished, the contractor shall furnish the Reporter proofs of all plates, and shall make all corrections and alterations therein indicated by said Reporter, and shall furnish proofs thereof.

(7) Proofs of all opinions, syllabi, table of cases, index and all corrections shall be furnished by the contractor to the Reporter, and delivered at the office of the Reporter of the Supreme Court.

All charges of time for changes from original copy, after type is set, except those occasioned by error of contractor, his agents and servants, shall be certified to as having been ordered by the Reporter, and must also be accompanied by an affidavit from the contractor, or his agent or agents, certifying that such charge is just and proper.

All changes from original copy after the type is set, except those occasioned by the contractor, for which no compensation will be allowed, shall be certified to as having been ordered by the Reporter of the Supreme Court, and shall be paid for by the line, which sum per line shall include all charge for composition, inserting corrected lines and proof-reading, all complete. In no case will any charge be allowed for taking out and replacing imperfect type either before or after same has been plated. Plate corrections which are made on the order of said Reporter shall be paid for by the hour.

Each bidder, at the time of submitting his bid, shall also submit and deposit with the Board, payable to the order of the Governor of Indiana, a certified check in the sum of \$1,000, as required in the general notice and specifications given elsewhere herein.

The contractor, in accepting the work of printing the Supreme and Appellate Court Reports, will be required to give a bond in the sum of \$15,000, to be approved by the Board.

Any bidder who shall be awarded the contract shall maintain an office in the city of Indianapolis of sufficient capacity for the transaction of all business under said contract, and all work done under said contract shall be performed within the State of Indiana. The contractor shall not assign or sub-let the same, or any portion thereof, to any other person without the written consent of the Board.

All bids shall be to deliver all reports and plates to the office of Secretary of State without extra charge.

All work on these reports shall be done, as furnished by the Reporter of the Supreme Court, speedily and without unnecessary delay; and should there be such delay, the contractor shall pay to the State, as a penalty therefor, the sum of \$20.00 per day; the amounts due the State in such penalties to be subtracted from amount due contractor at any settlement period. Said penalty to be determined and imposed by the Board, if, after a thorough investigation by the Board, said delay has been found to be unnecessary and the fault of the contractor. The work of the

Reporter shall have precedence over other public work except that done for the legislature and other work as specially ordered by the Clerk of the Printing Board.

Bidders on Supreme and Appellate Court Reports must accompany bid with whole sheet samples of 60-lb. white paper, as bid on in item one; also sheet of 50 lb. 24x36 manilla paper, as bid on in item six. Paper must be properly labeled, with name of bidder thereon.

Books shall be sewed by hand or first-class machine, shall be sewed with best quality Irish linen thread into four strong linen tapes, lace stitched, which shall be glued with best quality flexible glue to the backs, as directed by the Clerk of the Printing Board.

In case of the failure of the contractor to do any of the work promptly, the Printing Board shall have the right to order the work done elsewhere, the cost thereof to be deducted from the contractor's claim.

In accepting the contract the contractor is required to accept all the conditions set out above in reference to the printing and binding of the Supreme and Appellate Court Reports and the furnishing of proof to the Reporter, as required herein.

Before wrapping, said books shall be examined by the Clerk of the Board of Public Printing.

All rejected books shall be the property of the State without cost, and the State shall have the right to make such disposition of same as the Printing Board shall see fit.
